California State Association of Endodontists
2008 Biennial Session
October 18 & 19
FESS PARKER’S DOUBLETREE RESORT
Santa Barbara, CA

SATURDAY, OCTOBER 18

7:30-8:30 Buffet Breakfast, Exhibitors, Registration
8:30-10:30 Dr. Markus Haapasalo (Canada)
“Irrigation: a complete update on irrigants and irrigation with the latest developments”
10:30-11:00 Break & Exhibitors
11:00-1:00 Dr. Markus Haapasalo (Canada)
“Internal and cervical resorption: etiology, diagnosis and treatment”

SUNDAY, OCTOBER 19

7:30-8:30 Buffet Breakfast & Exhibitors
8:30-9:30 Dr. George Bogen (USA)
“Changing trends for the endodontic workforce in California—what’s happening to our specialty?”
9:30-10:00 Dr. John Ingle (USA)
“60 years of endodontics revisited”
10:00-10:30 Special Tribute
10:30-11:00 Break & Exhibitors
11:00-12:00 Dr. Elisabetta Cotti (Italy)
“Advanced imaging techniques for management of lesions in bone”
12:00-1:00 Dr. Roderick Tataryn (USA)
“The cognitive disconnect between rhinosinusitis and endodontic disease”

*This year’s unique schedule provides for 8 hours of CE credit over two days without necessitating loss of clinic time on Friday for our members. Also, since the Session will occur prior to the changing of Daylight Savings Time, this ensures plenty of afternoon sunlight to explore Santa Barbara’s incomparable surrounds and recreational offerings following the half-day morning lecture periods on Saturday and Sunday.

CSAE BOARD (2007-2008)

President: Dr. C. John Munce  Immediate Past President: Dr. Victoria Moore
President-elect: Dr. John Jaber  Secretary: Dr. Nava Fathi
Treasurer: Dr. Charles V. Tatosian  Executive Secretary: Teresa Kuhlman
SPEAKERS

Dr. Markus Haapasalo has authored/co-authored over 80 scientific articles in peer-reviewed journals. He is the head of the Division of Endodontics, Department of Oral Medical and Biological Sciences, Faculty of Dentistry at the University of British Columbia, Canada. He was previously the head of the Endodontic Department and Director of the Postgraduate Program in Endodontics, Faculty of Dentistry in Oslo, Norway. He is the editor-in-chief of Endodontic Topics and of an international endodontic multimedia program, "Visual Endodontics & Traumatology," and an associate editor of the JOE. Dr. Haapasalo received his dental degree (1978), his PhD (Dr Odont.) (1986) on the microbiology of endodontic infections, and his endodontic specialization (1987) all from the University of Helsinki, Finland.

Dr. George Bogen maintains a private Endodontic practice in Los Angeles, CA. He received his dental degree (1978) and his certificate in endodontics (1995) from USC and is a Diplomate of the ABE. He is currently the President of the Southern California Academy of Endodontics (for the 2nd time!). Dr. Bogen has published several research articles, and he lectures internationally and for the postgraduate endodontic programs at USC, UCLA, LLU and the VA Long Beach.

Dr. John Ingle is internationally recognized as one of the founding fathers of endodontics and the indefatigable co-author of the textbook that bears his name—Ingle's Endodontics—the 6th edition of which has just been released. He is the former Dean and Professor of Endodontics and Periodontics at USC's School of Dentistry, and former Professor and Chairman of Endodontics and Periodontics at the University of Washington School of Dentistry. He is about to celebrate his 90th birthday!

Dr. Elisabetta Cotti received her DDS degree from the University of Cagliari (1985) and an MS in Endodontics from LLU (1991). She is Chairman of the Department of Conservative Dentistry and Endodontics at the University of Cagliari and teaches in the Advanced Education Programs in Endodontics at the University of Bologna and at the University of Roma (La Sapienza). Dr. Cotti has published numerous scientific papers and conducts ongoing clinical research on periapical pathology, immature teeth and imaging techniques.

Dr. Roderick Tataryn recently authored the chapter on the inter-relationship between maxillary sinusitis and endodontic disease in the just-released 6th edition of Endodontics (Ingle, Bakland & Baumgartner) and has authored a number of scientific papers. He received his DDS (1989) and his MS in Endodontics (1994) from LLU. Dr. Tataryn maintains a private endodontic practice in Spokane, WA and is a member of the Clinical Practice Committee of the AAE.

SYNOPSIS

Dr. Markus Haapasalo

“Irrigation: a complete update on irrigants and irrigation with the latest developments”

The presentation will cover cutting edge knowledge of the effects of irrigation on cleaning and disinfection. Also, the effects of irrigation on root canal wall dentin properties will be discussed. New information will be presented by visually attractive SEM images of highest quality. The new tools to facilitate irrigation will also be presented and discussed. Recommendations for effective and safe irrigation will be made.

“Internal and cervical resorption: etiology, diagnosis and treatment”

The presentation will focus on the occurrence, etiology, pathogenesis, diagnosis, differential diagnosis and treatment of internal and cervical root resorptions. The presentation will include numerous clinical cases of both types of resorptions, shown via radiographs, CT scans and clinical images. Recommendations for treatment and materials used for treatment will be made.

Dr. George Bogen

“Changing trends for the endodontic workforce in California—what’s happening to our specialty?”

The practice of endodontics is undergoing critical changes affecting the very stability of the specialty in California. A diminishing patient pool has been accentuated by the increased complexity of cases referred for specialty care. Changing demographics, epidemiology and critical economic factors combined with the impact of implantology, advances in endodontic technology, increasing numbers of endodontic CE courses, insurance company policies, postgraduate residency program levels and “rentodontists” have all contributed to the changing complexion of our specialty. Understanding these factors will assist endodontists in making adjustments to minimize their impact.

Dr. John Ingle

“60 years of endodontics revisited”

Born in 1919, Dr. Ingle will present the past 100 years of progress in both the nation and in the discipline of endodontics in particular. This includes the formation of the American Board of Endodontists, the standardization of endodontic instruments, his years in academia, the development of his textbook, Endodontics, and a surprise ending related to dentistry’s role in the development of one of America’s most endeared entertainers/educators.

Dr. Elisabetta Cotti

“Advanced imaging techniques for management of lesions in bone”

Besides conventional radiographic techniques, we now have Computerized Tomography, Cone Beam Computerized Tomography, Magnetic Resonance and Real Time Echotomography. Research by Dr. Cotti’s group with Ultrasound Real Time Imaging has shown it to be a valid alternative/complement to traditional radiographic imaging because it allows visualization of periapical lesions in bone, revealing diameters and providing assessment of vascular supply. It also facilitates differentiation between fluid-filled cavities (cysts) and solid lesions (granulomas). Since the biologically-safe exam can reveal changes in vascularization, it can facilitate the study of response to various phases of endodontic therapy.

Dr. Roderick Tataryn

“The cognitive disconnect between rhinosinusitis and endodontic disease”

Despite the well-documented relationship between odontogenic infections and maxillary sinus disease, the incidence and clinical implications of this important inter-relationship often go unrecognized by both the dental and medical communities. This lecture discusses the etiology and pathophysiology of acute and chronic rhinosinusitis, and the diagnostic challenges that face both the endodontist and otolaryngologist in recognizing maxillary sinusitis of dental origin. Increased awareness, utilization of CT imaging, and development of relationships with ENT physicians will allow endodontists to be leaders in improving the health of many patients suffering with chronic sinus infections.
Your own private Santa Barbara. In a green Southern California valley, encircled by gentle mountains and the blue Pacific, hides Santa Barbara, one of the loveliest cities this side of paradise. Just at the city's edge, where palm trees meet the ocean's waves, you'll find the very place you've been dreaming of. The perfect California beach-front luxury resort hotel. An oasis within an oasis. Charm. History. Sandy beaches. Red tile roofs. Cool rooms, warm faces and endless amenities. Uncomplicated. Relaxing. Hopelessly romantic. Full of possibilities. Fess Parker's DoubleTree Resort in Santa Barbara.

GUEST ROOM RESERVATIONS
Book early to receive special room rates!

The cut-off date for our negotiated group rates is September 17, 2008—guests must make their reservations by this date to receive the contracted group rate; after this date rate and rooms are subject to availability.

- Make your reservation online at http://www.fpdtr.com/reservations.html and enter our 3-digit Group/Convention Code of CSA or call (805) 884-8511 or (877) 893-0892 and ask for the CSAE Room Block. Guests requesting upgraded room types (Garden or Ocean View) should call and request to speak with In-House Reservations.
- You may extend your stay and receive the discounted room rates for up to 3 days before and after the meeting dates—subject to room and rate availability, so book early!

The Santa Barbara Airport has non-stop/direct service to/from many cities throughout California and the West: Los Angeles, San Jose, San Francisco, Sacramento, San Diego, Denver, Phoenix, Las Vegas and others. For additional information, visit the Airport’s Website (www.flysba.com).

Airport Shuttle service to/from Fess Parker's DoubleTree is available. Please call the DoubleTree directly at (805) 564-4333 several days in advance to reserve. Same-day Shuttle requests are subject to availability.

REGISTRATION
California State Association of Endodontists
2008 Biennial Session
October 18 & 19
FESS PARKER'S DOUBLETREE RESORT
Santa Barbara, CA
All events & 8 hours CE credit no charge to CSAE members
Non-members see below*

Name:_________________________________________ E-Mail:__________________________
Address:_______________________________________ Phone #:_________________________
City/State/Zip:________________________________ Fax #:__________________________

Please return this form to:
tkuhiman@pacific.edu
or to: (415) 749-3339
or mail to: Teresa Kuhlman
2130 Fillmore Street, #231
San Francisco, CA 94115

*California AAE members who are not currently CSAE members may pay the annual $75 CSAE dues to obtain CSAE membership and attend this course at no additional charge. Please contact CSAE executive secretary, Teresa Kuhlman, at tkuhiman@pacific.edu or at (415) 929-6626.
Announcing!

2008 CDA Peer Review Calibration Workshops

CSAE encourages every member to consider becoming a Calibrated Specialty Peer Reviewer. Our ability to monitor ourselves as specialists is dependent on maintaining an adequate number of calibrated endodontists across the state. Maintaining calibrated status requires attending a Workshop once every 2 years. C.E. units are available for attending Calibration Workshops.

The following is the latest list of currently scheduled Peer Review Calibration Workshops:

San Joaquin/Stanislaus Dental Societies
Date: Friday, June 27, 2008
Time: 9:00 a.m. – 3:00 p.m. (Registration begins at 8:30 a.m.)
Location: Courtyard Marriott - Brookside Room
3252 W. March Lane
Stockton, CA 95219

San Mateo Dental Society
Date: Friday, August 1, 2008
Time: 9:00 a.m. – 3:00 p.m. (Registration begins at 8:30 a.m.)
Location: San Mateo County Dental Society Office
240A Twin Dolphin Drive
Redwood City, CA 94065

Fall Scientific Sessions – San Francisco
Date: Saturday, September 13, 2008
Time: 9:00 a.m. – 3:00 p.m. (Registration begins at 8:30 a.m.)
Location: TBD
*Note: Fall Sessions Workshop attendees please register for Sessions and obtain a badge in order to receive CE Units.

California Dental Association
Date: Friday, October 17, 2008
Time: 9:00 a.m. – 3:00 p.m. (Registration begins at 8:30 a.m.)
Location: CDA Headquarters, 15th Floor Conference rooms B and C
1201 K Street
Sacramento, CA 95814

Complimentary Continental breakfast and lunch provided.

To register for any of these workshops, please contact Raquel Viteri at 800.232.7645 ext. 4963 or raquel.viteri@cda.org and Lorraine Atkins at ext. 5932 or lorraine.atkins@cda.org
