

Michigan Association of Endodontists

The organizational meeting of the Michigan Association of Endodontists was held in the fall of 1960. The founding members were: Doctors A. C. Blumenstock, Gerald Dietz, Sr., Melvyn Eder, Fred Carber*, Daniel Goodman, Harold Maxmen and Setsuo J. Matsura.

Doctors Daniel Goodman and Melvyn Eder were instrumental in encouraging the Michigan State Board of Dentistry to provide Michigan state specialty licensure for endodontics.

The oral, written and clinical endodontic specialty examination is designed and administered yearly by members of the Michigan Association of Endodontists under the auspices of the State of Michigan.

The Council of Michigan Dental Specialties is charged with the responsibility of observing the legislative branch of government to help ensure that the specific needs of the specialist in Michigan are met. The president of the Michigan Association of Endodontists sits on the Council Board and is presently striving to regain specialty licensure as opposed to speciality certificate.

Jeffrey L. Ash, D.D.S., M.S., President
