

Tooth Wisdom

From your friendly, neighborhood Endodontist.

Like precious few things in this world, teeth were designed to last a lifetime. And Endodontists dedicate their lives to protecting them. Here's why you should always choose Root Canal Treatment over extraction, dentures or other treatments.

Feel better working with the best, and keep your teeth for life.

LESS THAN **3%** of dentists are certified Endodontists, with 2-3 years of additional training required.

Help reduce your risk of illness. A healthier mouth = a healthier you.

2x Brush 2x daily and see your dentist 2x per year.

Procedures are precise and virtually painless.

Increased skills + efficiency = most treatments completed in a single visit.

Root Canal Treatments are safe, convenient and widely recommended.

With 25 million procedures every year, you can count on tried and true.

Using the latest in 3D imaging + advanced technology, Endodontists put safety first.

↓ Reduced risk of infection. ↑ Increased patient satisfaction.

Always go the **Root Canal route.**

When given a choice between Root Canal Treatment or tooth extraction.
